**Section VIII. Preventive measure**

- Waste disposal** Dispose of material according to regional, provincial and federal regulations. Consult your local or regional authorities.
- Storage** Store in a cool, well-ventilated area away from incompatible materials and ignition sources.
- Precautions** May cause severe irritation or burns to eyes and irritation to moist skin. May cause irritation to upper respiratory tract. Do not breathe dusts. Avoid contact with eyes and skin. DO NOT ingest. If ingested, seek medical advice immediately and show the container or the label. Wear suitable protective clothing. Keep locked up. Keep container dry. Keep out of reach of children.
- Spill and leak** Use appropriate tools to put the spilled solid in a convenient waste disposal container. Dilute with water and mop up, or absorb with an inert DRY material. If necessary: Neutralize the residue with a dilute solution of acetic acid.
- 

**Section IX. Personal protective equipment**

- Gloves** Gloves.
- Respiratory** Wear appropriate respirator when ventilation is inadequate.
- Eyes** Splash goggles.
- Other** Full suit, apron, face shield, boots: are recommended under exceptional circumstances such as fire, spill, or for prolonged contact with bulk quantities.
- Eng. controls** Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value. Ensure that eyewash stations and safety showers are proximal to the work-station location.
